NEW CANAAN, CT—Sorelle Gallery is pleased to announce our 1st lecture & solo exhibition of paintings by artist Julia Contacessi. The lecture and exhibition will take place on September 12th from 5:00pm to 8:00pm. The lecture will start at 5:30pm. The show will stay on display through September 24, 2014.

If calm and serene had a voice, what would it say? Or, the smile of sunlight... where would it's curve lead us? Maybe, like water, these truths come to life by taking the shape of their surroundings. Their voices are an echo, and their form a reflection.

My beautiful truth is just that. It's a place where a finished canvas is just the beginning. Where resting comfortably - on a hook in this wall - provides a different point of view than if hanging on that wall. It's where, the end is where life begins.

Artist's Statement

‘When you layer on the paint just right, so that it dances across a wash of another color, a new level of dimension is created, Combine that dimension with the exploration of color and I’ve just begun to capture something meaningful. My style is single-minded and focused on the simplicity of beauty in the moment. My goal is to drown out the noise and clutter to find a sense of calm through light. The end result is clean, fresh and modern.’
